**ASPIRANET FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING
REVIEW**

In accordance with your Board's March 2, 2011 motion, we are informing your Board of the results of a Foster Family Agency (FFA) compliance review.

Aspiranet FFA has two offices, both located in the 4th Supervisorial District. Both offices provide services to Los Angeles County Department of Children and Family Services (DCFS) foster youth. According to Aspiranet FFA program statement, its stated mission is "to meet the need for quality human services for children, families and community and to provide those communities quality foster care services for referred children and their families." Aspiranet FFA is licensed to serve children ranging from birth through 18 years of age.

The DCFS Out-of-Home Care Management Division (OHCMD) conducted a review of Aspiranet FFA in June 2011, at which time they were supervising a total of 96 DCFS placed children and 42 certified homes. For the purpose of this review, 15 children's files were reviewed and 15 children were interviewed in five certified foster homes. The placed children's overall average length of placement was 15 months, and the average age was 7. Five certified foster parent files, five discharged files and five staff files were reviewed for compliance with the Title 22 regulations and the contract requirements.

ASPIRANET FFA
PAGE 2

Seven placed children were on psychotropic medication. We reviewed their case files to assess timeliness of psychotropic medication authorizations, and to confirm that medication logs documented correct dosages and that medications were being administered as prescribed.

SCOPE OF REVIEW

The purpose of this review was to assess Aspiranet FFA's compliance with the contract and State regulations. The visit included a review of the Agency's program statement, administrative internal policies and procedures, 15 placed children's case files, seven psychotropic files, five certified foster parent files, five discharge files and five personnel files. Face-to-face visits and interviews were conducted with five certified foster parents to assess the quality of care and supervision provided to children and we conducted interviews with the DCFS placed children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Aspiranet FFA was in substantial compliance with providing the services outlined in its program statement. Based on our review, the few deficiencies revealed a need for more thorough documentation and increased oversight to include routine monitoring of the files by supervisory staff to decrease or eliminate documentation issues found in the files. Overall, Aspiranet FFA was providing good care and services to the children and support to the certified foster parents as outlined in its program statement and as evident in the relationships formed.

The deficiencies noted during the monitoring review were in the area of initial dental examinations. Two placed children had their initial dental examinations two weeks late. Further, we did not find documentation in two personnel files noting that criminal fingerprint and CACI clearances were submitted prior to date of hire. Finally, we did not find a one-week supply of non-perishable food in two of the certified homes visited.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Two of the five certified foster homes visited did not have a one-week supply of non-perishable food.
- Two of the five personnel files reviewed did not have criminal fingerprint and CACI clearances submitted timely.

- The initial dental examinations for two children were two weeks late.

A detailed report of our findings is attached.

Of noteworthy mention, the Agency had one youth graduate high school during the review and accepted to attend UCLA. This youth was part of our sample and he credits his FFA social worker for providing on-going support and guidance to assist him in achieving his goals.

EXIT CONFERENCE

The following are highlights from the Exit Conference held June 15, 2011.

In attendance:

Andrea Helzer, Aspiranet District Administrator from the Los Angeles Office and Cori Shaffer, CSA I, Monitor, DCFS OHCMD.

Highlights:

During the Exit Conference, the Aspiranet Los Angeles/Long Beach District Administrator was in agreement with our findings and recommendations. The District Administrator provided written verification that her fingerprints were submitted by their Human Resources Department in February 2003, two weeks prior to hire and that the District Administrator from the Aspiranet Santa Fe Springs Office submitted her fingerprints for clearance in December 2001, two weeks prior to her hire. She also provided written verification, from the contact notes, that the FFA social worker went to the two certified foster homes and verified that both homes had a one-week supply of non-perishable food. Ms. Helzer indicated that she would provide additional verification once training was completed with her staff and certified foster parents with regard to the Title 22 regulations for required food supplies in the homes. She indicated that she will also provide a plan of oversight to ensure on-going monitoring of the homes. In regards to the two late initial dental examinations, she indicated that Aspiranet makes every effort to ensure that initial dental examinations are timely for all placed children.

Aspiranet FFA agreed to submit a timely approved written CAP, to address each recommendation noted in this compliance report. The CAP is attached.

We will assess for full implementation of the recommendations during our next monitoring review.

The following report is based on a "point in time" monitoring visit. This compliance report addresses findings noted during the June 2011 monitoring review.

CONTRACTUAL COMPLIANCE

Based on the results of the monitoring review, Aspiranet FFA was in substantial compliance. Based on our review of 15 children's files, five certified foster parent files, five discharge files and five staff files and/or documentation from the provider, Aspiranet FFA was in full compliance with eight of the 11 sections of our Contract Compliance Review: Licensure/Contract Requirements; Certified Foster Homes; Maintenance of Required Documentation/Service Delivery; Educational and Workforce Readiness; Psychotropic Medication; Personal Rights and Social/Emotional Well-being; Personal Needs/Survival and Economic Well-Being; and Discharged Children. The following report details the results of our review.

FACILITY AND ENVIRONMENT

Based on Aspiranet FFA's review of five certified foster home files and/or documentation from the provider, Aspiranet FFA fully complied with seven of the eight elements reviewed. During OHCMD's visits to two of the certified foster homes, we noted that there was not a seven-day supply of non-perishable food in the homes as per the CCL requirement. Following the FFA review, Aspiranet FFA submitted a Corrective Action Plan (CAP) which included written verification by the FFA social worker that a one-week supply of non-perishable food items had been purchased by the certified foster parents. The FFA Administrator indicated that the staff will routinely check the home for on-going compliance.

Recommendation:

Aspiranet FFA's Management shall ensure that:

1. All certified foster homes have an adequate supply of non-perishable food (one-week supply) and that the FFA social workers routinely inspect the foster homes to ensure on-going compliance.

HEALTH AND MEDICAL NEEDS

Based on our review of 15 children's files and/or documentation from the provider, Aspiranet FFA fully complied with five of the six elements reviewed. We noted that for two of the children selected who were placed in the same certified foster home, the initial

ASPIRANET FOSTER FAMILY AGENCY
PAGE 2

dental examinations were two weeks late. The FFA Administrator indicated that they would ensure all children's initial dental examinations were timely.

Recommendation:

Aspiranet FFA's Management shall ensure that:

2. All age-appropriate children have an initial dental examination within 30 days of placement, that the FFA staff routinely monitor for on-going compliance and that documentation is maintained in the children's files.

PERSONNEL RECORDS

Based on our review of five personnel files and/or documentation from the provider, Aspiranet FFA fully complied with 12 of the 14 elements reviewed. For two staff selected, we did not find documentation in the files indicating that their criminal clearances were timely. More specifically, for one staff member hired in March 2003 we found verification of clearances dated April 2005, and for another staff member hired January 2002 we found verification of clearances dated March 2003. Upon completion of the review, the FFA staff provided documentation from their Human Resources Department that fingerprint clearances were submitted prior to hire date; however, there was no documentation that the clearances were approved on or about date of hire. The Aspiranet administrative staff indicated that they would ensure that all staff members have approved clearances prior to date of hire.

Recommendation:

Aspiranet FFA's Management shall ensure that:

3. Criminal clearances for all Aspiranet staff will be completed and approved prior to hire date and that documentation is maintained in the personnel files.

PRIOR YEAR FOLLOW-UP FROM THE AUDITOR-CONTROLLER'S COMPLIANCE REPORT

The Auditor-Controller's (A-C) last compliance review was issued on October 1, 2008.

Objective

Determine the status of the recommendations reported in the prior A-C's compliance review.

Verification

We verified whether the outstanding recommendations from the A-C's last compliance review dated October 1, 2008 were implemented.

Results

The prior compliance report contained two outstanding recommendations. Aspiranet FFA's Management was to ensure that Needs and Services Plans (NSPs) were in compliance with the contract and State regulations. More specifically, four initial NSPs were not timely and two NSPs did not address the children's ability to manage their allowance. The recommendations were fully implemented.

MOST RECENT FISCAL REVIEW CONDUCTED BY THE AUDITOR-CONTROLLER

A fiscal review of Aspiranet FFA has not been posted by the A-C.
